Occupational Health Conference Mission:

The 4th Annual Federal Occupational Health Conference will address critical elements of quality Occupational Health programs within the federal agencies. Some of the nation's leading Occupational Health Clinicians, Industrial Hygienist, Ergonomists, Infectious Disease and Workers' Compensation authorities will discuss cutting edge issues, which all federal agencies deal with on an ongoing basis. As federal agencies strive to be the employers of choice, it is recognized that a significant emphasis must be placed on the safety, health and well being of their employees.

Conference registrants will be able to discuss mutual concerns and network with their colleagues, peers and leaders in their fields from across the United States and various federal agencies.

WCC Conference Mission:

The purpose of this conference is to impart the skills, knowledge and expertise of world-class subject-matter experts to conference participants. Moreover, the exceptional networking opportunity that this conference affords its attendees enables the unparalleled sharing of a host of other views, experiences and processes found on other employing agencies. This is the only National Conference in the country devoted exclusively to job-injured employees covered by the Federal Employees' Compensation Act (FECA). The curriculum task force members for this 12th Annual Federal Workers' Compensation Conference & Exposition considered all the recommendations presented by the thousands of attendees

at the eleven previous conferences and used these recommendations to develop yet another exciting curriculum for this year.
