

Addictions Conference Sponsorship Opportunities

Now in its sixth year, CHEP Inc.'s Annual Addictions Conference has established itself as a leading program centered on educating medical professionals working within the realm of addictions. We provide a full-day program with speakers presenting on timely topics surrounding this epidemic that is plaguing our communities. As our dual mission at CHEP works to provide lifesaving support for homeless veterans, we see the direct impact the information gained through this program brings to the clinicians working with this population, as well as the impact made to the community at large. Over the past six years, we have been able to steadily grow this program, and with your help, this year we can continue those efforts in reaching an even larger footprint. This year the program will be held on Wednesday, October 9, 2019 at Water's Edge Events Center.
